

# TABLE OF CONTENTS

## CHAPTER 1: QUICK REFERENCES

Vascular Images.....	2
Nasal Anatomy.....	3
Trigeminal Nerve .....	5

## CHAPTER 2: OMS PAPERWORK

History and Physical Examination .....	8
Neurologic Evaluation.....	12
Glasgow Coma Scale.....	12
Cranial Nerves .....	13
Admission Orders .....	13
Progress Notes.....	15
ICU Progress Notes .....	16
Preoperative Notes .....	17
Operative Notes.....	18
Postoperative Orders.....	19
Night of Surgery (NOS) Notes.....	20
Discharge Notes.....	20
Sedation Progress Notes.....	21
References .....	22

## CHAPTER 3: LABORATORY VALUES AND FORMULAS

Fluids.....	24
Fluid Compartments .....	24
Water Balance.....	24
Baseline Fluid Requirements.....	25
Daily Body Fluids.....	25
Composition of Parenteral Fluids.....	26
Specific Replacement Fluids.....	27
Ascitic/Pleural Fluids .....	28
Electrolytes.....	29
Sodium .....	29
Potassium.....	31
Chloride .....	33

Calcium .....	33
Magnesium .....	34
Phosphorus .....	35
Glucose.....	36
Blood Gas Analysis.....	37
Components .....	37
7 Steps to Arterial Blood Gas (ABG) .....	37
Acid-Base Equilibrium .....	38
Differential Diagnosis .....	40
Coagulation .....	42
Coagulation Cascades .....	42
Measurement .....	43
Transfusion of Blood Products .....	43
Hematology .....	45
Normal Values .....	45
Urinalysis .....	46
Normal Values .....	46
Urine Values .....	47
Formulas.....	47
Causes of Fever .....	48
References .....	49

## CHAPTER 4: COMMON OPERATIONS

Coronal Approach.....	52
Preauricular Approach.....	53
Submandibular (Risdon) Approach .....	55
Transconjunctival Approach to the Orbital Floor and Rim .....	57
Subciliary Approach to the Orbital Floor and Rim .....	58
Upper Eyelid Approach to the Superolateral Orbital Rim .....	59
Supraorbital Lateral Brow Approach .....	61
Le Fort I Osteotomy .....	62
Bilateral Sagittal Split Osteotomy.....	64
Intraoral Vertical Ramus Osteotomy .....	66
Genioplasty .....	68
Sublingual Gland Excision (Ranula Excision).....	69
Cricothyrotomy.....	70
Tracheostomy.....	71
Anterior Iliac Crestal Bone Graft.....	72

Tibia Bone Graft (Lateral Approach).....	73
References .....	75

**CHAPTER 5: OUTPATIENT SEDATION AND GENERAL ANESTHESIA**

Definitions.....	78
Stages of General Anesthesia .....	79
Preoperative Evaluation .....	80
ASA Physical Status Classification .....	80
Preoperative Fasting Recommendations .....	81
Recommended Preoperative Laboratory Studies.....	81
Pregnancy Considerations .....	82
Cardiovascular Assessment .....	83
Cardiac Risk Stratification for Noncardiac Surgical Procedures.....	83
Interventions to Reduce Perioperative Cardiac Complications.....	86
Airway Evaluation .....	87
Mallampati Classification.....	88
Cormack and Lehane Laryngoscopic View Grades.....	89
Pediatric Airway Considerations .....	89
Airway Evaluation Definitions .....	90
Guidelines for Infective Endocarditis .....	91
AHA Infective Endocarditis Prophylaxis Regimes .....	91
Suggested Operating Room Setup.....	92
Monitoring.....	93
Visual Observation Methods.....	94
Brainstem Function .....	94
Baseline Determinations .....	95
Monitoring of Specific Functions .....	95
Recording of Specific Monitoring Parameters .....	96
Anesthesia Equipment.....	98
Endotracheal Tubes/Airway Management .....	98
Mechanical Ventilation.....	99
Indications .....	99
Pressure-Controlled Ventilation .....	99
Volume-Controlled Ventilation.....	99
Modes of Ventilation .....	99
Measures of Ventilation.....	100
Noninvasive Ventilation.....	100
Initial Ventilator Settings .....	101

Ventilator Dynamics .....	101
Weaning Criteria .....	101
Weaning Techniques .....	102
Lung Volumes.....	102
Capnograph .....	103
Discharge Criteria .....	104
Modified Aldrete Patient Discharge Scoring .....	104
Malignant Hyperthermia (MH) .....	105
Drug Association .....	105
Management of MH Susceptible Patients .....	106
Laryngospasm .....	109
Bronchospasm .....	111
Anaphylaxis.....	113
References .....	115

## **CHAPTER 6: DENTOALVEOLAR SURGERY**

Classifications and Codes for Third Molars.....	120
Pell & Gregory Classification of Impacted Mandibular Third Molar Teeth.....	120
Pell & Gregory Classification of Impacted Maxillary Third Molar Teeth.....	120
Winter Classification of Impacted Third Molars.....	121
American Dental Association Definitions .....	121
Extraction Site Healing Progression .....	121
Associated Conditions.....	122
Pericoronitis.....	122
Lingual Nerve in the Third Molar Area .....	123
Complications of Dentoalveolar Procedures.....	124
Alveolar Osteitis (Dry Socket) .....	124
Root Fragments and Root Tips.....	124
Root Displacement .....	124
Postoperative Bleeding .....	126
Periodontal Defect.....	127
Nerve Dysfunction .....	128
Impacted Teeth Other Than Third Molars.....	128
The Natural History of Third Molars .....	128
Periodontal Considerations in Third Molar Removal .....	129
The Microflora around the Second and Third Molars.....	130

The Effects of Age on Various Parameters Relating to Third Molars .....	130
Orthodontic and Prosthodontic Considerations in the Removal of Third Molars .....	131
Current Imaging Techniques .....	131
General Technique of Third Molar Removal .....	132
The Possible Role of Coronectomy in Third Molar Treatment.....	134
The Role of Lingual Flap Elevation and Lingual Retraction in the Management of Third Molars.....	134
Can/Should Anything Be Placed in the Socket Following Third Molar Removal?.....	135
Nerve Damage – Prevention, Evaluation and Management in Relation to Third Molars .....	135
References .....	136

## **CHAPTER 7: DENTAL IMPLANT SURGERY**

Background.....	140
Treatment Planning.....	140
Patient Evaluation .....	140
Patient Chief Concerns and Expectations .....	141
Type of Prosthesis .....	141
Esthetic Evaluation .....	142
Periodontal Biotype Evaluation.....	143
Edentulous Space or Ridge Evaluation.....	144
Soft-Tissue Evaluation .....	144
Potential of Creating or Preserving Papilla .....	145
Hard-Tissue Evaluation .....	145
Residual Ridge Form .....	146
Radiographic Evaluation .....	146
Computed Tomographic Scan (Cone Beam CT).....	147
CBCT-Guided Surgery .....	147
Diagnostic Casts .....	147
Use of Surgical Guides.....	148
Definitions of Dental Implant Restoration .....	148
Preparing the Implant Site .....	149
Surgical Periodontal Therapy .....	149
Correction of Deficient Osseous Support .....	149
Alveolar Distraction Osteogenesis .....	150
Socket Preservation .....	152

Algorithm.....	153
Immediate Implant Placement.....	153
Delayed Implant Placement.....	153
Flap Design Considerations.....	153
Inferior Alveolar Nerve Repositioning.....	156
Surgical Protocol.....	157
Preoperatively.....	157
Atraumatic Drilling.....	157
Postoperative Care.....	158
General Considerations for Implant Placement.....	159
Anterior-Posterior (AP) Spread.....	160
All-on-4.....	161
Short Implants.....	161
Vascularized Grafts.....	162
Zygomatic Implants.....	162
1 Stage Placement.....	163
2 Stage Placement.....	163
Abutments.....	164
Screw Retained.....	164
Cement Retained.....	164
Platform Switching.....	164
Immediate Loading.....	165
Criteria for Success.....	165
Complications.....	166
Soft-Tissue Complications.....	166
Bony Complications.....	167
Ailing or Failing Implant.....	168
Implant Loss.....	168
Marginal Bone Loss Over Time.....	169
Peri-implant Soft-Tissue Complication.....	169
References.....	170

## **CHAPTER 8: ORTHOGNATHIC/OBSTRUCTIVE SLEEP APNEA/CLEFT AND CRANIOFACIAL SURGERY**

Pertinent Anatomy.....	176
Maxilla.....	176
Mandible.....	177
Hierarchy of Stability in Orthognathic Surgery.....	177

Overview of Surgical Procedures .....	178
Le Fort Osteotomies.....	178
Bilateral Sagittal Split Osteotomy (BSSO) .....	179
Sequencing of Maxillomandibular Surgery.....	180
Mandible First Surgery Consideration .....	180
Evaluation of Dentofacial Deformities (DFD) .....	180
DFD I Appointment.....	180
DFD II Appointment .....	181
Presurgical Treatment .....	181
Virtual Planning in Orthognathics.....	182
Advantages Compared to Conventional Planning.....	183
Disadvantages Compared to Conventional Planning .....	183
Traditional Model Surgery vs. 3D Planning.....	183
Timeline for 3D Planning.....	185
Obstructive Sleep Apnea (OSA) .....	186
Definitions.....	186
Respiratory Disturbance Index (RDI) .....	186
Epworth Sleepiness Score.....	186
Fujita Classification of OSA Obstructive Locations .....	186
Diagnosis .....	187
Cephalometric Analysis.....	187
Non-Surgical Management .....	188
Surgical Management .....	188
Distraction Osteogenesis .....	189
Indications .....	189
Effects on Surrounding Soft Tissue .....	190
Biologic Basis.....	190
Procedure.....	190
Cleft Lip and Palate .....	191
Epidemiology.....	191
Genetics.....	192
Cleft Lip Nasal Deformity Features .....	192
Classifications of Clefts .....	193
Lip Closure Options .....	195
Palate Closure Options .....	198
Velopharyngeal Incompetence (VPI).....	199
Surgical Treatment Staging.....	199
Craniosynostosis.....	200

Trigonocephaly .....	200
Brachycephaly .....	200
Scaphocephaly .....	200
Anterior Plagiocephaly .....	200
Posterior Plagiocephaly .....	201
Cloverleaf Skull .....	201
Craniofacial Dysostosis .....	202
Treatment Plan .....	202
Craniofacial Syndromes/Anomalies .....	203
Treacher Collins .....	203
Craniofacial Microsomia .....	203
Other Common Syndromes .....	205
References .....	206

## CHAPTER 9: TRAUMA/EMERGENCIES

Essentials of Advanced Trauma Life Support .....	210
History .....	210
Primary Survey .....	210
Resuscitation .....	210
Adjuncts to Primary Survey and Resuscitation .....	210
Secondary Survey, Total Patient Evaluation, Physical Examination, and History .....	211
Adjuncts to Secondary Survey .....	211
Definitive Care .....	212
Transfer .....	212
Secondary Survey of Systems .....	213
Estimated Fluid and Blood Losses .....	217
Emergencies .....	218
Septal Hematoma .....	218
Infections With Rapidly Progressing Loss of Airway .....	218
Action Plan .....	218
Orbit Injuries .....	219
Retrobulbar Hematoma .....	219
Superior Orbital Fissure Syndrome .....	219
Orbital Apex Syndrome .....	220
Cavernous Sinus Syndrome .....	220
Sinus Injuries .....	220
Frontal Sinus Fractures .....	220

Anterior Table Fracture Only .....	220
Posterior Table Fracture .....	220
Management of Frontal Sinus Fractures Algorithm.....	221
Dental Injuries .....	222
Lacerations and Soft-Tissue Injuries .....	223
Classification of Wounds .....	223
Wound Types.....	223
Wound Conditions.....	223
Basic Guidelines for Repair of Facial Wounds.....	223
Lacerations in Special Anatomical Areas/Structures.....	224
Scalp Injuries .....	224
Eyelid Injuries.....	225
Nasolacrimal System Injuries .....	225
Nasal Injuries.....	226
Epistaxis.....	226
Ear Injuries .....	228
Lip Injuries .....	228
Oral Mucosa and Tongue Injuries.....	229
Parotid Injuries .....	229
Animal and Human Bite Injuries.....	230
Fractures of the Maxillofacial Skeleton .....	230
Nasal Fractures.....	230
Orbital Wall, Roof, and Floor Fractures.....	231
Zygomaticomaxillary Complex (ZMC) Fractures .....	233
Naso-Orbital-Ethmoidal (NOE) Fractures.....	235
Maxillary Fractures .....	238
Mandibular Fractures.....	240
Medical Cardiac Emergencies.....	242
Adult Bradycardia Algorithm .....	242
Adult Tachycardia With a Pulse Algorithm .....	243
Adult Cardiac Arrest Algorithm (VF/pVT/Asystole/PEA).....	244
Adult Basic Life Support Algorithm for Healthcare Providers.....	245
Pediatric Bradycardia With a Pulse Algorithm .....	246
Pediatric Tachycardia With a Pulse and Poor Perfusion.....	247
Pediatric Tachycardia With a Pulse Algorithm .....	248
Pediatric Cardiac Arrest Algorithm .....	249
Pediatric Basic Life Support Algorithm for Healthcare Providers – Single Rescuer .....	250

Other Emergencies Checklist .....	251
Sutures .....	255
Characteristics of Absorbable Suture Material.....	255
Characteristics of Nonabsorbable Suture Material.....	259
References .....	261

## **CHAPTER 10: DIAGNOSIS AND MANAGEMENT OF TEMPOROMANDIBULAR JOINT DISORDERS**

Temporomandibular Joint (TMJ) Anatomy .....	264
Imaging Techniques .....	266
Panoramic View.....	266
Lateral Tomogram.....	266
Computed Tomography and CBCT .....	266
Magnetic Resonance Imaging .....	266
Other Adjunctive Imaging Modalities.....	267
Wilkes Staging of Internal Derangement of the TMJ.....	267
Goals of TMJ Surgery .....	268
Procedures.....	269
Arthrocentesis .....	269
Arthroscopy .....	269
Disk Repositioning Procedures .....	270
Reparative Disk Procedures.....	270
Total Diskectomy.....	270
Disk Replacement.....	271
Temporalis Muscle Flap.....	271
Auricular Cartilage Graft .....	271
Dermal Graft.....	271
Abdominal Dermis Fat Graft.....	271
Alloplast Materials.....	272
Condylectomy/Total Joint Reconstruction.....	272
Indications.....	272
General Considerations .....	272
Costochondral Graft.....	272
Alloplast Materials.....	273
1 Stage vs. 2 Stage TMJ Replacement for Custom Joints.....	273
Hypermobility .....	273
Complications of Surgery.....	274
References .....	275

**CHAPTER 11: DIAGNOSIS AND MANAGEMENT OF PATHOLOGIC CONDITIONS**

Differential Diagnosis .....	280
Soft-Tissue Lesions .....	280
Midline Neck Masses.....	282
Lateral Neck Masses.....	282
Bony Lesions .....	282
Cysts and Tumors of the Jaws.....	285
Histology of Common Lesions .....	285
Current Classification of Jaw Cysts.....	288
Odontogenic and Nonodontogenic Tumors of the Jaws.....	288
Head and Neck Oncology.....	289
Staging for Carcinoma of the Lip and Oral Cavity .....	289
Staging of Oral Cavity Cancer .....	290
Memorial Sloan-Kettering Cancer Center System.....	291
Suggested Investigations at Time of First Appointment .....	291
Commonly Used Imaging Modalities for Staging .....	292
Critical Radiologic Features Affecting Selection of Treatment.....	292
Oral Squamous Cell Carcinoma.....	292
Basal Cell Carcinoma.....	293
Melanoma .....	294
Salivary Gland Lesions .....	294
Common Benign Salivary Gland Tumors .....	294
Common Malignant Salivary Gland Tumors .....	294
Medication-Related Osteonecrosis of the Jaw (MRONJ) .....	295
Antiresorptive Preparations Commonly Used in the U.S. ....	295
Bisphosphonate Therapy.....	296
Bisphosphonate Mechanism of Action.....	296
Risk Factors .....	296
Treatment Recommendations .....	297
Clinical Findings of Medication Related Osteonecrosis .....	298
Osteoradionecrosis .....	299
Hyperbaric Oxygen Therapy.....	300
References .....	302

**CHAPTER 12: RECONSTRUCTIVE SURGERY**

Defect Classification .....	306
Mandibular Defects .....	306

Maxillary Defects.....	307
Soft-Tissue Grafts.....	308
Split-Thickness Skin Grafts.....	308
Full Thickness Skin Grafts.....	308
Graft Site Healing.....	308
Donor Site Healing.....	309
Contraction.....	309
Reasons for Skin Graft Failure.....	309
Hard Tissue Grafts.....	309
Bone Grafting Principles.....	309
Criteria for Success of Maxillofacial Bone Reconstruction.....	310
Intraoral Grafts.....	310
Mandibular Block Grafts.....	310
Anterior Iliac Crest Bone Graft.....	311
Posterior Iliac Crest Bone Graft.....	313
Costochondral Graft.....	314
Tibial Bone Graft.....	315
Calvarial Bone Graft.....	316
Common Regional Pedicled Flaps.....	319
Common Free Vascularized Flaps.....	323
Muscle and Myocutaneous.....	323
Fascial and Fasciocutaneous.....	324
Composite.....	325
Techniques for Increased Flap Survival.....	328
Flap Monitoring.....	328
Leech Therapy.....	330
References.....	331

### **CHAPTER 13: COSMETIC MAXILLOFACIAL SURGERY**

Anatomy and Esthetic Evaluation.....	334
Facial Photographs.....	334
Frontal and/or Profile Evaluation.....	334
Face Height (Total Face Height Trichion to Menton).....	334
Face Width.....	335
Evaluation of Individual Facial Units.....	336
Nine Facial Esthetic Units.....	336
Forehead.....	336
Eyes and Eyebrows.....	336

Cheeks.....	338
Ears .....	339
Nose.....	339
Lower Face .....	340
Expected Aging Process by Decades .....	341
Fitzpatrick Skin Tone Chart .....	342
Glogau Scale for Grading the Severity of Photoaging.....	343
Norwood Classification of Male Pattern Baldness .....	344
Ludwig Classification of Female Pattern Baldness .....	345
Sequencing of Surgical Procedures .....	345
Rhinoplasty.....	345
Otoplasty .....	349
Cervicoplasty .....	350
Brow Lift .....	352
Blepharoplasty .....	353
Rhytidectomy .....	355
Chemical Peels.....	356
Lasers.....	357
Resurfacing.....	358
Dermal Fillers .....	359
Botulinum Toxin Type A (Botox) .....	360
Facial Implants.....	361
References .....	362

## CHAPTER 14: NERVE INJURY

Nerve Anatomy.....	368
Nerve Injury Classification.....	369
Nerve Terminology.....	370
Trigeminal Nerve Injuries.....	371
Neurosensory Testing of the Trigeminal Nerve.....	373
Normal Values for Two Point Discrimination .....	374
Modified Medical Research Scale for Sensory Nerve Evaluation .....	376
Indications for Microneurosurgical Evaluation/Repair .....	377
Timeline for Surgical Intervention of Unobserved Injury .....	377
Management of Specific Observed Nerve Injury Conditions .....	378
Nerve Repair Techniques .....	378
Prognosis for Microneurosurgery .....	380
Postoperative Care .....	380

Sensory Re-Education.....	380
Facial Palsy Evaluation .....	380
Facial Nerve Components.....	382
House-Brackmann Facial Nerve Grading System .....	383
Differential Diagnosis .....	385
Bell Palsy .....	386
Facial Palsy Red Flags.....	387
Management of Traumatic Facial Paralysis .....	387
Facial Nerve Grafts .....	388
References .....	389

## CHAPTER 15: MEDICAL MANAGEMENT

Acute Abdominal Pain .....	392
Differential Diagnosis .....	392
Right Upper Quadrant .....	392
Right Lower Quadrant .....	392
Epigastric.....	392
Umbilical.....	392
Suprapubic .....	393
Left Upper Quadrant.....	393
Left Lower Quadrant.....	393
Alcohol Facts.....	393
Hypertension .....	394
Shortness of Breath .....	396
Differential Diagnosis .....	396
Pulmonary.....	396
Cardiac.....	396
Anion Gap Metabolic Acidosis .....	396
Evaluation.....	397
Chest Pain.....	397
Differential Diagnosis .....	397
Cardiac.....	397
Pulmonary.....	397
Other.....	397
Evaluation .....	397
Chest X-Ray Films .....	398

Liver Disease .....	398
Assessment of Liver Synthetic Function .....	398
Other Liver Tests .....	398
Four Patterns of Liver Dysfunction.....	399
Hepatocellular Injury .....	399
Cholestasis and Obstruction.....	399
Isolated Hyperbilirubinemia.....	399
Infiltrative.....	400
Acute Liver Failure.....	400
Cirrhosis .....	400
Kidney Disease.....	401
Renal Failure.....	401
Renal Function Tests.....	401
Blood Urea Nitrogen (BUN).....	401
Plasma Creatinine.....	401
Acute Kidney Injury .....	401
Chronic Kidney Disease.....	402
Electrolyte Imbalance.....	402
Associated Problems.....	403
Anesthesia Management .....	403
Postoperative Management .....	404
Effects of Anesthetics on Renal Function.....	404
Inhaled Anesthetics.....	404
Direct Nephrotoxicity.....	404
Perioperative Concerns With Renal Failure and Dialysis Patient.....	405
Immunodeficiency .....	405
Factors Associated With Immune System Compromise .....	405
Diabetes Mellitus (DM).....	406
Insulin Characteristics.....	409
Dental/Surgical Management of the Pregnant Patient.....	410
Dental Treatment Timing .....	410
Patient Management Issues .....	410
Use of Radiation.....	411
Pharmacologic Considerations.....	412
Main Points of Consideration for Treating a Pregnant Patient .....	413
Medications to Avoid During Pregnancy .....	413
Medications to Avoid During Lactation.....	414

FDA Pregnancy Classifications With Respect to Potential Fetal Risk.....	414
References .....	415

## **CHAPTER 16: ORAL AND MAXILLOFACIAL INFECTIONS**

Relevant Surgical Anatomy .....	418
Simple Odontogenic Infections .....	427
Complex Odontogenic Infections.....	427
Immunocompromising Conditions.....	427
Eight Steps in the Management of Severe Head and Neck Infections .....	427
Indications for Hospitalization.....	427
Extraoral Incision Sites for Drainage of Head and Neck Infections.....	429
Empiric Therapy for OMS Infections .....	430
Ludwig’s Angina.....	431
Criteria for Hospital Discharge.....	432
Practical Tips for Management of Head and Neck Infections .....	432
Animal and Human Bites.....	433
Sepsis .....	435
Systemic Inflammatory Response Syndrome (SIRS) .....	435
Sepsis .....	435
Severe Sepsis .....	435
Septic Shock.....	435
Acute Respiratory Distress Syndrome .....	436
Organ Dysfunction Criteria.....	437
Management of Sepsis and Septic Shock.....	438
Antimicrobial Prophylaxis for Bacterial Endocarditis.....	439
Prophylaxis for Patients with Total Joint Replacement Prosthesis.....	441
References .....	442

## **CHAPTER 17: PHARMACOLOGY**

Pharmacology of Medications Commonly Used in OMS .....	446
Commonly Used Preoperative Medications .....	446
Local Anesthesia.....	447
Dosages for Commonly Used Local Anesthetics .....	447
Local Anesthetic Precautions.....	448
Overdose.....	449

Treatment .....	449
Warnings .....	449
IV Sedation .....	450
Benzodiazepines .....	450
Barbiturates.....	450
Other.....	450
Inhalation Anesthetics.....	451
Tissue Group Composition.....	453
Intravenous Anesthetic Agents .....	453
Commonly Used Opioids .....	454
Commonly Used Muscle Relaxants.....	454
Cholinesterase Inhibitors.....	455
Common Postoperative Medications.....	456
Pediatric Sedation.....	457
Antibiotics.....	460
Main Categories.....	461
Major Adverse Effects .....	468
Dosage Guidelines .....	470
References .....	475

## INDEX

A-Z Index .....	473
-----------------	-----
